DETAILED ACTION

Allowable Subject Matter

The applicant's arguments are found to be persuasive. Claims 1-25 and 28-32 are allowable because the claimed subject matter is not taught or fairly suggested in the prior art. None of the prior art teach compounds that contain the carboranyl-containing 5, 10, 15, 20-tetraphenylporphyrin cores having at least four carboranyl groups in combination with one or more of a variety of hydrophilic groups on the phenyl rings. Moreover, none of the prior art teach methods for using such compounds in tumor imaging and diagnosis.

The closest prior art is found in Frixia et al. where tetraphenylporphyrin core compounds are taught that have carboranyl groups on three of the phenyl groups but not all four of the phenyl groups. Moreover, hydrophilic groups are found on two of the four phenyl groups and in combination with only one of the carboranyl groups.

Conclusion

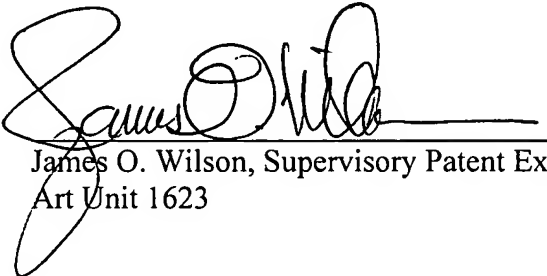

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew L. Fedowitz whose telephone number is (571) 272-3105.
